Participation in Global Projects:

WASH from the start

- In Slovakia, the issue of hand washing, teeth, face, belongs to the basic hygiene practices that are part of the environment of kindergarten daily fine. Children learn in partnership with parents to follow these important hygiene habits, but also for hand washing, using the toilet, save water and keep drinking regime. The 1st of March is the Water day. During this period, primarily, but also throughout the school year, kindergarten have developed internal projects and activities which through games, creative drama, theater, poems and songs for children approaching the need to conserve water and wash your hands. The kindergarten is a common use toilets for girls and boys, but in some kindergartens already appear divided. In primary and secondary schools are particularly toilets for girls and boys.

Support and promote ECEC/ECD at the national level:

- Preparation of legislation,
- Work in advisory bodies of the Ministry of Education,
- Working with parents and the public
- Working with students at universities
- Working with teachers

Direct child services:

- in the framework of the School Open to All project (a project co-financed by the EU), children from socially disadvantaged

backgrounds have teaching assistants to help them overcome language problems in particular.

- the kindergartens have cooperation with the Centre for Educational Psychological Counselling and Prevention and, if necessary, a psychologist visits the kindergarten and assists in solving problems. The kindergarten also cooperates with a speech therapist, a dentist

Early childhood advocacy

- in legislation
- in curriculum documents
- in meetings with parents
- in the preparation of future teachers
- in teacher education
