

Each year the OMEP holds a World Assembly attended by delegations from more than 50 countries, together with an International Conference, which is always a matter of great prestige for the host country.

For the coming year the Czech OMEP National Committee has succeeded in becoming the host country, for the very first time since the organisation was founded. In 2018 OMEP will be celebrating its 70th anniversary. To mark this occasion the OMEP World Assembly and International Conference will be held in Prague.

The Czech OMEP National Committee invites all teachers, school heads, educators, psychologists, special educators and other professionals involved in caring for children from birth to the age of 8, to join in the discussion on the current conditions in early childhood education in relation to the future.
